

CAMEO Professional Auxiliary of Assistance League® of Long Beach is a nonprofit volunteer organization that seeks your help in strengthening its only philanthropic program, the CAMEO Mentoring program.

For over twenty years, CAMEO volunteers have provided a unique one-on-one mentoring and financial support program which targets promising Long Beach area high school and Long Beach City College students. The program provides mentoring support, career-oriented workshops and activities, paid summer internships with local business partners, financial aid for educational scholarships, computer equipment, schoolbooks and materials. CAMEO members mentor 45-50 students each year to higher levels of achievement by providing encouragement and support for each student's personal and academic development. This comprehensive curriculum, designed to enhance each student's educational, cultural, and social development, complements our mentoring outreach.

Financial support for CAMEO's philanthropic program comes overwhelmingly from the community. CAMEO's annual budget is raised through one event, a springtime fashion show extravaganza. Your support of this fashion show makes these activities and more possible. Thank you for your support!
